Allegheny CleanWays is committed to keeping our volunteers safe as we continue to work to keep Allegheny County clean and beautiful. The Tireless Project has developed a safety plan that adheres to CDC guidelines and will allow volunteers to participate in riverfront cleanups during this unprecedented time.

Eligibility: Before participating in an Allegheny CleanWays volunteer event, volunteers must acknowledge that in the past two weeks they have not come in contact with any individual known or suspected of having Covid-19. Additionally, staff and volunteers must acknowledge that they have not traveled internationally within the last two weeks. If so, the individual must complete a two-week self-isolation period, at the end of which display no symptoms before being eligible to participate.

Personal Protective Equipment: In accordance with Pennsylvania Department of Health Guidelines, all volunteers must wear a face mask while attending a volunteer event. Volunteers are required to bring their own facemask. Additionally, two pairs of non-sterile gloves will be provided for all volunteers.

If you have or are displaying symptoms of COVID-19 or have been in contact with anyone known or suspected to have COVID-19, please stay home from our events. We would love to have you with us, but your and everyone else’s health and safety is far more important!

Allegheny CleanWays will provide all necessary safety and first aid gear to ensure the safety of our volunteers. We will have a hand washing station as well as hand sanitizer available. We encourage our volunteers to apply sunscreen and bug spray at home before attending our event. All materials used for cleanups will be sanitized before and after all volunteer events.

Volunteers are required to wear long pants and closed toe shoes. We recommend either boots or rain boots. Please bring your own water and snacks for our volunteer events. We will have sealed water available for volunteers that do not bring their own.
